

# The Diesel Bus Pollution Correlation

## Diesel Particulate Matter Concentrations and Diesel Fuel Polluting Facilities

### LEGEND

Concentrations of Particulate Matter (PM)  
in New York City by Census Tracts as  
Micrograms per Cubic Meter ( $\mu\text{m}^3$ )

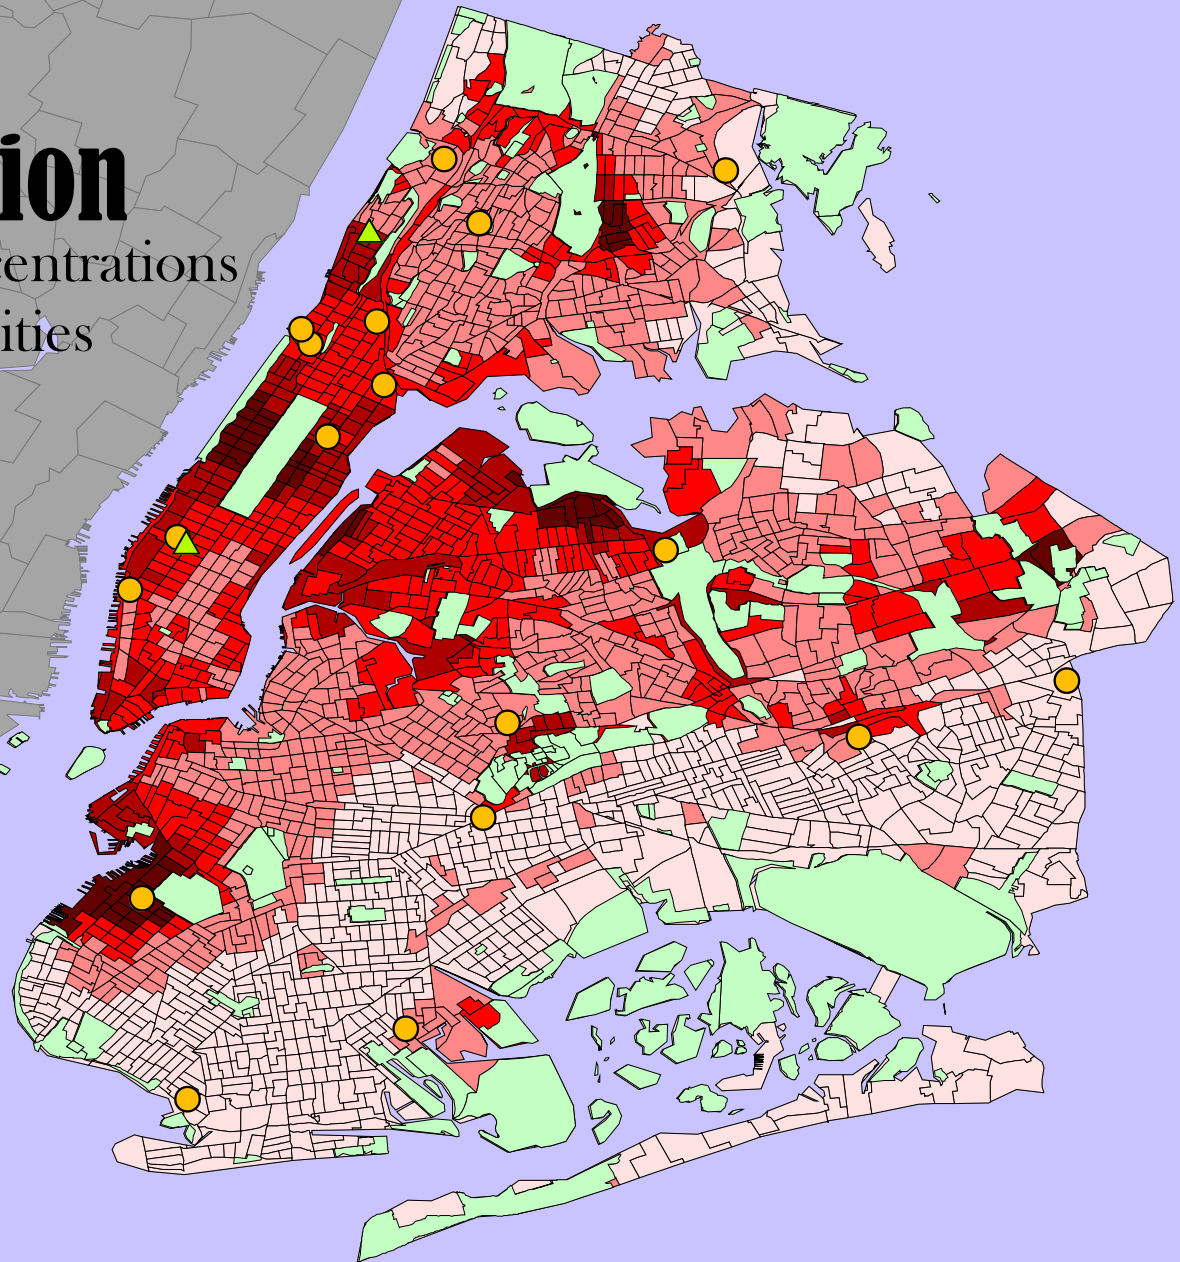

Note: Distribution of classes  
are in "Natural Breaks." This  
method arranges all of the data  
segments in chronological order,  
then divides the information into  
their according classes by using  
the natural deviations between  
the largest differences in data  
segments as the demarcation line.

 Parks & Landmarks

 MTA Bus Depots

 Port Authority Bus Terminals
