EPA Docket ID No. EPA-HQ-OAR-2013-0602

December 1, 2014

Dear Administrator McCarthy:

The destruction that climate change can bring – the exacerbation of health conditions like asthma & allergies, the impact on homes & local economy, the threat to infrastructural safety and health, and the mental health of our brothers and sisters – is often felt more by on low income, communities of color, and Indigenous Peoples. That is why we have major concerns over how little equity and environmental justice are explicitly addressed in the Clean Power Plan. We, the undersigned, stand with **WE ACT for Environmental Justice** as members of impacted communities, students, professionals, academics, environmental advocates and regular citizens that are concerned about climate justice and equitable protection.

We want the EPA to include language in the final rule and subsequent guidance **that recognizes and considers potential impacts on environmental justice communities, and explicitly directs states to identify ej communities and where there are potential disparate impacts, and take steps to avoid or mitigate those impacts.**

So to ensure equity and environmental justice (EJ) are made a priority in the Clean Power Plan, we offer the following recommendations be included in the final rule:

- Delineation of how states will achieve **absolute emissions reductions of greenhouse gases and co-pollutants from facilities** (both coal-fired, existing and new natural gas plants) in and near EJ neighborhoods as a part of their State Implementation Plans (SIPs),
- Provide guidance on how **states conduct an EJ analyses** that: 1) demonstrates the above mentioned emissions reductions in and near EJ communities; and 2) determines the distributive costs and benefits of proposed carbon emission reduction strategies to EJ communities, and require this analysis to be part of the SIP;
- Not allow the use of carbon trading mechanisms – such as cap and trade – to be considered a ‘best system of emissions reduction’, and
- The **use of renewable energy and efforts for energy efficiency should be prioritized in EJ communities** and state implementation plans **must demonstrate** this prioritization.

Your mission Administrator is to build sustainable and healthy communities. We support all of the Agency’s efforts to improve the state of air. However, it is also critical that you make equity and justice a pivotal, documented piece of the CPP and the Agency’s standard operating procedures going forward. The EPA has an explicit obligation to protect the health and environmental conditions of EJ communities, as defined in Executive Order 12898 and Title VI of the Civil Rights Act. We look forward to seeing the EPA fulfilling these obligations and living up to its own standards of promoting EJ by assuring equity and justice are fundamental pieces in the federal and state rule making process. Thank you.

Ms. Peggy Shepard
WE ACT for Environmental Justice
Executive Director

Mr. Cecil M. Corbin Mark
WE ACT for Environmental Justice
Policy Director

Dr. Jalonne L. White-Newsome
WE ACT for Environmental Justice
Federal Policy Analyst

These priorities were developed collectively by WE ACT for Environmental Justice, Center for Earth, Energy & Democracy, LVEJO, New Jersey Environmental Justice Alliance, and members of the Environmental Justice Leadership Forum on Climate Change (www.ejleadershipforum.org) in support of the Clean Power, Clean Air, Clean Communities campaign (www.weact.org/ejcleanair).
