On June 2, 2014, the EPA proposed the Clean Power Plan to reduce carbon pollution from existing power plants. The purpose of this webinar is to:

- Provide a general overview of the EPA's Clean Power Plan and 111(d) standard
- Highlight some elements of the rule that might be a concern for low income, communities of color, and others impacted directly by existing power plants
- Increase the level of interest and engagement in the public commenting process that is forthcoming at the federal and state level
