

# INITIAL EJ ISSUES

- How a state develops its measures
  - Rate-based or Mass-based
- “Clean Power”
  - Nuclear energy; Natural Gas CC (assumes re-dispatch of existing facilities)
- Multi-state Mechanisms
  - Carbon trading
- Analyses and multi-state planning/discussions
- Equity (among states): Where’s the EJ?

# PROCESS – EJ PARTICIPATION

- States are developing their “input” through various means, including comments to the rule
  - Who is consulted;
  - How are “stakeholders” defined?
- State process for determining development and implementation of state plans
  - Analyses of future options
  - Ongoing planning
